THIS MODEL was introduced in 1896. It was one of the first safety bicycles. It had a diamond frame, two wheels of equal size, a chain drive, a seat, and handlebars. It was designed to be a safe and comfortable way to travel. The bicycle was made of steel and had a simple design. It was popular among people who wanted a faster and more reliable mode of transportation. The bicycle was also used for recreation and exercise. It was a significant improvement over the earlier high-wheel bicycles. The bicycle was a symbol of progress and modernity. It was a popular mode of transportation for many years. The bicycle was a great invention. It changed the way people traveled. It was a simple and effective way to get from one place to another. The bicycle was a great invention. It was a symbol of progress and modernity. It was a popular mode of transportation for many years. The bicycle was a great invention. It changed the way people traveled. It was a simple and effective way to get from one place to another.

BEAVER

BEAVER is a classic diamond-frame bicycle. It has a large front wheel and a smaller rear wheel. The frame is made of steel. The bike has a black saddle, handlebars, and a chain drive. It is a classic design that is still popular today.
